## WHO AM I?

A passionate and highly motivated developer with a deep-seated love for coding. My journey began at a young age. I'm a recent graduate of School 33 in Yaroslavl, where I achieved a Certificate of Distinction. Currently, I'm studing at FCS HSE As a freelance developer on Kwork.com, I specialize in automating business processes by creating virtual employees and bots, including Telegram bots, parsers, and websites.

- JavaScript
- Python
- Dart
- Telegram API
- Java
- C++
- Django
- LangChain

git  linux  docker  VS code  linux

## EXPERIENCE

**2023**
part-time (junior)

**Backend developer**  vlaba.ru
I've created a bots for corporations. I have also automated some business processes with AI
```
Python / Django / Aiogram / Pyrogram
```

**2024**
hackathon

**Backend developer**  PROD 1st degree
It was a hackathon where we had to solve a business problem by creating a product. Me and my team created a service to bring people together in a team at hackathons, based on their hard and soft skills.
```
Python / Django
```

**2024**
hackathon

**Backend developer**  Inno Hack
We have created a highload service for task tracking in 48 hours

**2022 – 2024**
freelance

**Full stack developer**  KWORK
I create websites, mobile apps, telegram bots etc.
```
Python / Django / Aiogram / Pyrogram / JS / React.js
```

## EDUCATION

**2024 – 2028**  **Bachelor's Degree**  Higher School of Economics
